**HIS HONOR JUDGE G. W. GREENE**  
who was banquetted on Wednesday evening last.

## Banquet to Judge G. W. Greene

Wednesday evening was a red letter day in the history of Red Deer, it being the occasion of the banquet to Judge G. W. Greene, one of Red Deer's most prominent citizens. The ladies of the Presbyterian church put on a well-chosen and varied menu, daintily set out, promptly served, and giving satisfaction to all the diners: the Committee had made no mistake in this department. Rev. W. G. Brown, Vice-President of the Club, and the toastmaster for the evening, kept things moving in good style; he was supported by the guest of the evening and Judge Mahaffy, by Lt.-Col. Robinson and Capt. Reeve, of the 187th, by Mr. A. H. Russell, secretary-treasurer of the Club, to whose initiative and indefatigable exertions and oversight the great success of the banquet was due. Rev. Coots and Mr. Welliver occupied the vice-chairs. The speaking was pleasantly supplemented by songs from Messrs. Anderson and Johns. Mr. Welliver accompanying and the program. Mr. Turnbull's design and work, was worthy of the occasion, a capital cut of Judge Greene being one of its chief features. The affair got under way early in the evening; the speeches did not grow tedious, and the company was able to enjoy a very happy evening and get home in reasonable time. It was a matter of regret that Mr. E. McKeen, M.P.P., Mr. H. H. Gaetz and other old friends of Judge Greene

other old friends of Judge Greene some called out of the city by prior engagements, could not be present to offer their tribute on this occasion. Among others present, besides those mentioned and the speakers of the evening were: Messrs. "Hepworth" Moyle, Gibbler, Fulton, Horn, Hunter, Gings, Keith Swanson, Murr, C. Byers, Hogg, C. Rutter Jr., Locke, McClure, Melstrom Samuels, Lord, C. Cruikshank, G. W. Smith, Crumphy, Julian Shuman, A. T. Stephenson, Bottmiller, J. F. Day, G. Wright, Corp. Hanna, Parnely, J. Wallace, Cornett, Best, H. G. Stone, M. A. Munro, Whitehouse, Pidgeon, Cunningham, Maxwell, Youmans, John McDougall (Calgary), J. Law, Carver, Lind, J. Bell, W. A. Moore, Adair, Sheriff McPherson, Kent, Mayor Carwell, Turnbull, Rev. Finn Roberts.

Rev. W. G. Brown  
Toastmaster  
"God Save the King"

The toastmaster, Rev. W. G. Brown opened proceedings by calling the meeting to order and in a few appropriate words explained that the object of the gathering was to do honor to one of Red Deer's oldest and most prominent citizens in the person of Judge G. W. Greene, President of the Canadian Club of Red Deer. He asked the assembly to

(Concluded on page 5)

F. Williams of Nelson, B. C., is in the city.

Edward Wilton has returned from Norberg and will remain permanently in Red Deer.

A Scottish concert, under the auspices of the "Old Maids" will be given in McKenna's Hall, Red Deer, on the evening of May 24th. Don't miss it.

The Institute Tea Room and Women's Exchange on Saturday, May 20th, will be in charge of Mrs. Greig. Mrs. Muldrew and Mrs. Rutledge. The ladies of the Baptist church will have a sale of homemade cooking at the Tea Room.

## The 187th Battalion Steadily Growing

Twenty-seven recruits signed on with the 187th at the armory on Monday and another lunch came in from Rocky Mountain House yesterday and signed on. The best of news comes from all parts of the district with regard to recruiting officers busy in all parts of the district and the reports received are of the best. At Coronation, F. W. Whiteside, M.P.P., was the first to volunteer when recruiting was started at that point and says that the riding will furnish 100 or more men. At Innisfail, Lieut. Barnett says he has 25 recruits and he will promise a hundred more.

There will probably be a band in connection with the battalion as already there are seven bands-on hand from Red Deer and there are about ten more signed on at Coronation. It is understood. There is no dead wood in the battalion, every man is up on the bit and a better, cleaner, bunch cannot be found in Canada. Sergeant Hunt, of the 151st, Calgary, who has been instructor of musketry there, has been transferred to the 187th.

Lieut. Taylor, Todd, Poulter, and Dover are four bright energetic officers all well acquainted with their work. Equipment for an entire company has arrived, including rifles, and the rest of the equipment will be forwarded as required. Squad drill for recruits is taking place at Olds, Stettler, and Castor. Sergeant Starley is helping in Innisfail. Lieut. Moore is recruiting at Coronation. Sergeant Osborne is recruiting at Castor. Lieut. Law is recruiting at Ponoka. Lieut. Todd at Olds. Lieut. Curtis at Hanna. Lieut. Weir at Carbon. Lieut. Parris at Drumheller. Sergt. Quigley at Delburne.

Mr. Peley of the Public School staff signed on only a day or so ago, and many other prominent men in the city are expected to join soon. The following have signed on in Red Deer to the present time: Lieut.-Col. C. W. Robinson. Capt. and Adjutant, F. R. Reeve. Lieut. C. S. Poulter.

## Letter From the Front

Corp. J. A. Carwell writing to his father the early part of April says:

Dear Dad—Back to work again after a bit of a holiday in England, I enjoyed it, too, although I was only resting about half the time, as I had a touch of rheumatism. Had a bath or two and got some new clothes. A drizzle was shot down in the Thames while I was there and there were a couple of air raids, but they did not cause much excitement. I saw the Red Deer boys again a few days ago. Phil Galbraith and I went down to see the Hives boys, W. Richards, R. Trimble, E. Kershaw, the Smith boys, L. Narcombe and others, including Billy Scott, and we also went and saw Colin Broughton in the 5th. He looks very well, in fact, I think most of the boys look better after being a while in the army.

We went up through Ypres on a large party last few days ago and pushed engineers supplies up a narrow gauge railway. Every few feet on both sides for a considerable distance there were shell holes. Shells hit near us half a dozen times, but we were unharmed. The way some of the buildings have been knocked around in those quarters is something here. It is said we are pushing over more shells than the Hoes but it is hard to believe. It sometimes seems as if all the effect of our shells and none of the effect of our own. They were shelling the trenches at St. Eloi, this afternoon and some of the boys certainly got their wind up, as we say here, and there isn't much wonder. They sound pretty vicious sometimes. Two of my friends from Edmonton were killed outright by a shell at Ypres a short time ago, Deitz and Bassit were their names.

April 21.—Dear Dad—Just a few lines to let you know that we are still here after a few more days of the business and it was a none too pleasant time either. Such a mess as some of the land along the trenches here is. It is almost indescribably—hardly a tree is left whole in some parts—a long line of broken and splintered stumps shows some of the roads run. The country is making a desperate effort to get green now and the hedges are coming into leaf.

There certainly are some sights to see in the town where I spoke in my last letter but one. The bombardment must have been tremendous. The roads suffer least of all as the hard flint stones seem almost to turn the shells, but in many cases they are awfully hard to walk on especially by wet feet. This part of the line is more conducive to the use of bombs than some other parts. We were right in front of an old mine crater. It is now full of water and I don't know how deep—all kinds of rubbish is strewn about everywhere and dead men—scrap iron, etc., etc. We don't get mail so regularly now. Sometimes a "News" comes along. I guess we get most of the letters. It is a sight though. Did I ever tell you that Horace Meers' brother is in our platoon. He is a nice, quiet, and oldish man, but seem to take the hardships quite philosophically.

Some more of my Edmonton friends went under lately. Well must close. Best love from us both.

ART

## Alderman W. J. Botterill

Takes a Commission in the 187th Battalion

Alderman Botterill will be a tower of strength to the new battalion. He has been on the Council for nearly twelve years and has always been a member of the 187th. He is an ex-President of the Board of Trade. He was a charter member of Kenilworth Lodge of Masons, and filled every chair in the lodge, he has acted as District Deputy, and is at present Junior Wardens of the Grand Lodge of Alberta. He was a charter member of the I.O.O.F. also. He has always taken a keen interest in sports, being at one time manager of Red Deer's ball team, when there was no professionalism, and his generalship won the championship of the Province for the home team over the city organization. He is an enthusiastic curler and takes great interest in hockey and football.

Lieut. Botterill has taken a great interest in the formation of the new battalion from the very first day it was mooted, and he helped along the good work at every opportunity, and we predict that his great sacrifice of large business interests and home ties will have a marked effect on recruiting in this district where he is so well and favorably known, and we predict that with his untiring energy and zeal he will soon rise to a higher position in his battalion.

## PATRIOTIC FUND

At the recent meeting of the Executive Committee held Monday night, four more applications for relief were passed upon. This makes a total of 60 families in and around Red Deer that the Patriotic Fund is trying to help during the absence of the soldiers on duty.

Other DogMan's first four-footed friend was  
the dog. Neither history nor legend  
tells when the dog ceased to howl  
like a wild beast and bark the scoldish,  
friendly bark of the domesticated  
creature, guardian of homes and sheep-  
herd of flocks.When man lived in caves and ate  
raw meat and wore hides, the dog  
was there to guard the cave—to keep  
away his brothers, the wolf and the  
jackal, for the dog was man's  
man's friend. He once howled like  
a wolf and screeched like a jackal  
and preyed upon man and his be-  
longings.There are over 150 kinds of dogs  
in domesticity, ranging from the wolf  
dog of Siberia to the pet poodle of  
France.The collie is a dog of the  
past. It is a dog of the future. It is

A Serbian in Native Costume

This gallantly dressed and happy looking  
individual with the long-stemmed  
pipe is a typical Serb—one of the  
thousands that fought so well  
against the Teutonic hordes. Hol-  
iday clothes such as these will be  
unknown for many years probably,  
most of the men of the country  
having worn nothing but military  
uniforms for so long, and there be-  
ing no occasion for holiday raiment  
in Serbia nowadays.**LIQUID OXYGEN**It has long been known that liquid  
oxygen mixed with substances like  
cotton wool forms a powerful explo-  
sive, but serious difficulties were en-  
countered in its practical use. A new  
method has now been discovered for  
handling this oxygen that makes it  
practical for commercial use.Bags are filled with a special form  
of lampblack which are soaked in the  
liquid oxygen for a few minutes just  
before they are required for use.  
If the bag is now lighted with a  
match it will burn quietly and very  
slowly, but if detonated it explodes  
with the force of dynamite, and the  
cost is much less.Much less carbon monoxide is given  
off than by most other explosives, and  
there is no danger from a misfire as  
the oxygen will evaporate in a short  
time.**MERCURY BICHLORIDE**How to Prevent Accident by Mistak-  
ing For Other MedicinesVarious methods designed to pre-  
vent the mistaking of bichloride of  
mercury for medicine, or some other  
harmless substance, have been pro-  
posed with the idea of making it  
possible to use this deadly poison as  
an antiseptic without incurring any  
danger. Two of the latest of these  
are extremely simple but evi-  
dently effective. One method con-  
sists in stringing the tablets together  
and then bottling them in the usual  
manner. A tablet can only be de-  
tached by cutting the string, and this  
apparently does away with all possi-  
bility of mistake. The other method  
is to incase the tablets in metal  
guards having sharp prongs, so that  
it is impossible to swallow them. The  
tablet can be dissolved with the  
guard in place or can easily be re-  
moved from the guard.**To Economize With Gas**Always keep the main gas tap only  
half on. If it is turned on full the gas  
rushes through the pipes, and a great  
deal is wasted.It is a great mistake to believe  
that the higher the gas is turned on  
the greater the heat and the quicker  
the saucen will boil.When the whole of the oven is not  
required, lower the "browner" or plain  
iron sheet half-way down, and use the  
lower half of the cooking. This will  
use very little gas.Get a sheet of very thin iron from  
the side of the top of the gas stove with  
narrow raised edges. Put this on the  
stove after lighting the largest burner,  
and several saucen can be kept  
"lolling with the" ring.**Test Your Memory**Who is mayor of the town nearest  
your own? Probably you have seen  
his picture in the paper frequently  
and have heard him mentioned times  
without number, but can you name  
him?A Safety Aeroplane  
A new Italian aeroplane with num-  
erous wing surfaces is designed to  
set as its own parachute and come  
to earth safely in event of a mishap.**ANIMALS' EYES**Reason Why Some of Them Can See  
in the DarkIt is commonly supposed that cats  
and some other animals are gifted  
in a way that enables them to see  
in perfectly dark places where it is  
impossible for the human eye to dis-  
cern anything. This is partly  
true, however. In a really dark room  
a cat can see no more than a human  
being. In semi-darkness, though, a  
cat can see more, because of a dis-  
tinctive difference in their eye for-  
mation.The eye of a normal person auto-  
matically adjusts itself, in the enlarg-  
ing and contracting of the pupil, to  
make it possible to see distinctly in  
different degrees of light.When we go from a darkened room  
out into a bright sunlight the eyes  
blink and squint until the pupils have  
contracted sufficiently to accommo-  
date the eyes to the quantity of light.  
And in going from the bright light  
into a darkened room, we cannot see  
clearly until the pupils have expanded  
to take in all the light possible.The advantage that cats and some  
animals have is that the pupils of  
their eyes are much larger and can  
expand so as to take in more light  
than the human eye. In places that  
may seem quite dark to human beings  
there may be more light than can be  
taken in by the eyes of the animals,  
and this accounts for the superior gift  
with which they are credited. In an  
absolutely dark room the cat or any  
other animal has no advantage.**A BIRD OF FEW WORDS**Macaw of the Tropics Not Much of  
a LinguistIf a cloven tongue were as unpopu-  
lar as a cloven hoof there would be  
no place in respectable society for the  
Macaw for this bird with the great  
beak and the massive head has a  
horridly hot on his tongue that sug-  
gests coarseness with a personage  
that we seldom talk about.But in spite of his long tube-like  
tongue, with his cloven tip the Macaw  
is a very well behaved member of  
the bird family and in the Philippines  
and in New Guinea and other tropicalplaces where he makes his home he  
greatly admires not only on account  
of the handsome form he wears on top  
of his head, but also because a wing  
or a leg of Macaw is very good eating  
when it's fricasseed or fried.Owing to his remarkable tongue the  
Macaw can, when he tries hard  
speak a few words, but unlike the  
Parrot he cannot carry on an extend-  
ed conversation. One of his pet words  
is "Cock-a-too" and for that reason  
he is sometimes called the cockatoo.**YOU SHOULD KNOW  
BUT DO YOU KNOW?**Do you recall the design on the  
silverware used at home? Have you  
been observing to know what  
sort of knives and forks you have  
been eating with twice a day all the  
time?How many steps are there to climb  
before you enter your home? Can  
you tell—off hand? Likely not. Yet,  
you used them twice a day or twice  
and have never stopped to count.**PROFESSIONAL****Dr. John Collison**

west Land Regulations.

The sole head of a family, or any  
male over 18 years old, may homestead  
a quarter section of available  
Dominion land in Manitoba, Sask-  
atchewan or Alberta. Applicant  
must appear in person at the Dom-  
inion Lands Agency or Sub-Agency  
for the District. Entry by proxy  
may be made at any Dominion Lands  
Agency (not Sub-Agency), on  
certain conditions.Duties—Six months residence upon  
cultivation of the land in each  
of three years. A homesteader may  
live within nine miles of his home-  
stead on a farm of at least 80 acres,  
on certain conditions. A habitable  
house is required except where resi-  
dence is performed in the vicinity.In certain districts a homesteader  
in good standing may pre-empt a  
quarter-section alongside his home-  
stead. Price \$3.00 per acre.Duties—Six months residence in  
each of three years after earning  
homestead patent, also 50 acres extra  
cultivation. Pre-emption patent may  
be obtained as soon as homestead  
patent, on certain conditions.A settler who has exhausted his  
homestead right may take a pur-  
chased homestead in certain districts  
Price \$3.00 per acre. Duties—Must  
reside six months in each of three  
years, cultivate 50 acres and erect a  
house worth \$300.The area of cultivation is subject  
to reduction in case of rough, scrub-  
by or stony land. Live stock may  
be substituted for cultivation under  
certain conditions.**W. W. CORY, C.M.G.,**

## Farewell Dance By The 89th O. Batt.

The Officers, Non-Commissioned Officers and Men of the 89th Battalion assisted by the 187th Battalion gave a farewell dance to their friends of Red Deer on Wednesday evening last in the Armory.

There was a great throng of fair women and brave men and the building was packed with about eight hundred people. The gallery was crowded; the entrance was crowded and even after the dancers filled the floor, there appeared to be enough left to cover another floor.

Everything passed off without a hitch. It was feared that there would be a shortage of eatables, but there was ample for all and the varied cakes, and especially the sandwiches, were delicious, and showed that the soldiers could do in this line, and the coffee was perfect. The ice cream was also a great attraction, and was greatly enjoyed by the ladies and gentlemen present.

(During the evening a brief address was given by Lieut. Col. N. S. Smith, of the 89th, who came in from Calgary on the evening train to attend the dance. He thanked the citizens of Red Deer for their many acts of kindness to the men of this battalion, while in the city, and said he could see now why the Calgary soldiers were so well satisfied to remain in Red Deer when he noticed so many beautiful women present, which created tremendous applause.) The music by the Webb Orchestra was first class and all present pronounced the dance the most successful ever held in the city, and a most fitting final entertainment by the officers and men of the glorious 89th, which will long be remembered by the people of Red Deer.

## The Alberta Farmers' Co-Op. Market Prices

Calgary, May 13, 1916  
Outward Shipments. Six cars to New Westminster, 1 car to Moose Jaw, and 3 cars to Vernon, Cranbrook, and Enderby. Ten cars of hogs to Toronto, 10 cars to Winnipeg and 5 cars to New Westminster.

Cattle and Hogs. Top \$8.10 for a load of light extra select steers. Prices ruling at 85.85-86.00 for finished grain fed cattle. (Top prices this week a year ago \$8.25). Hogs 12c Wednesday advancing to \$11.10 and 11.20. Top for four cars today at 11.25. Market weak at its close at \$11.21. Top hog price a year ago \$8.25. Our shipper to the Calgary and Toronto markets included one or more cars from Vulcan, Lomond, Donalda, Chinook, Carman, Crossfield, Langdon, Carstairs, Huxley, Red Deer, Kokoi, Isher, Kitsoy, Cadogan, Sedgewick, Provo, New Norway, Consp, Veteran, Youngstown, Munson, and Gayley.

No. 1, Fresh hides, shipping point The Steers, ex. choice heavy \$8.00-\$8.10 Steers, common to choice butcher \$7.25-7.75 Heifers, common to choice heavy butchery \$7.00-7.40 Cows, choice \$6.00-6.40 Cows, common \$4.75-6.00 Cows, canner \$2.50-3.50 Stags \$5.50-6.50 (Common, common to choice \$6.00-6.25) Bulls \$5.00-6.00 Veal calves, 200-300 lbs \$8.00-8.50 Veal calves 400 lbs \$7.50-7.80 Light feeding steers \$6.25-6.80 Light feeding heifers \$6.50-7.00 Springers, choice \$8.75-\$8.85 Springers, common \$8.50-\$8.60 (Hogs, \$11.25, double price for select, weighed off ears.

## THE 187TH BATTALION IS POPULAR

(Olds Gazette)  
A band of young athletes from the Calgary Y.M.C.A. journeyed to Red Deer and enlisted in the 187th. This means that a large number of Y.M.C.A. boys will follow.

The total number now enlisted amounts to 230. This is an excellent showing for ten days recruiting. Recruiting offices for the 187th Battalion have been opened at Olds, Hobbey, Carstairs, Aene, Carman, Swallow, Three Hills, Drumheller and Trechu. Prospects for the early recruiting of a company in a very short time are excellent.

The battalion will be assembled at Red Deer, but as each company is filled up they will be sent to Sarnes Camp, Calgary.

Everybody who is unable to enlist, should do his bit by getting a recruit for the 187th. Lieut. Col. Robinson, himself a returned hero, is selecting most of his senior officers from those who have returned from the front. That is the reason of the popularity of the battalion.

(Stettler Independent)  
Sergeant L. H. Gaetz arrived in Stettler, Wednesday afternoon with orders to recruit a platoon for the 187th Battalion. This is to be a Central Alberta Battalion represented directly by the different communities.

If Stettler raises a platoon it will be recognized as the Stettler Platoon. Non-commissioned officers school begins on Monday. There was never a better chance for promotion than will be given to men who enlist early in the battalion. Uniforms will be sent to them by the company to which they are assigned. Recruiting has been going on only two weeks and already there are three hundred men. The 151st Battalion in the past has been transferred to the 187th and if sufficient number from here enlist they will be kept together as a unit. The battalion is in command of Lieut. Col. C. N. Robinson, a veteran of St. Julien. Headquarters of the battalion will be Red Deer.

(Erskine Review)  
It is expected that recruiting will start here very shortly for the 187th, the regiment which will be raised in the Red Deer constituency exclusively.

## HEALTH DEPENDS ON WHAT YOU WON'T DO

Problem of the Many Men Who Drop Out After 40 Years of Age Is Increasing

Workers generally do not pay much attention to their health until they find it is impaired. They do not pay enough attention to prevention. Dr. Henry F. Fawcett, in an address before a Chamber of Commerce in a large western city said: "Anyone of you men has a hundred friends to society that you are moving along with side by side, doing your work, associating, back and forth, and so far as you know all of them are well. Along somewhere between 30 and 50 some of these hundred will drop out. There will be others dropping out between 30 and 40 and between 40 and 50 and between 50 and 60 and by the time you have got along to 60 years of age you will find that the men who are left in that original group of 100, who are men of strength and capable are very few."

"Along from 40 to 50 and 55 you will find that a very large number of men are falling by the way by reason of things that are easily understood—after it is too late. Men who develop heart disease, kidney and prostate disease and things of that kind. We find we have at that time of life what are called degenerative diseases, diseases in which the vital organs have gone to pieces one way or the other from various causes."

"The point I want to make about these diseases is this: By the time these degenerations have been so established that anybody knows they are there and they can be given a name and treated as a disease, by that time it is too late. Oh, yes, you can patch along, you can amputate, you can adjust, you can do all sorts of artificial things, but it is too late to do much about that class of disease and that is the class of disease with which we as physicians are dealing with all the time and in increasing numbers along in those two decades of life."

"The question of maintaining health is very largely a question of what you won't do, not a question of what you do. It is purely a question of self-discipline. Purely a question of first seeing what to do and then having the courage to do it."

## CHEMICALS FOR POULTRY

Charcoal, Ammonia and Sulphur—How to Use Them

Sulphur is a medicine and not a food. While it is true that it is found in small quantities in almost all grains and other articles of poultry feed, it is not true that it is a food and that it should be fed indiscriminately. The sulphur that is found in feed is usually combined with some other substance to counterbalance it. There are times when it may be fed to fowls, but care must be taken. It should never be fed during wet weather, as it is liable to cause rheumatism or a stiffness of the joints. It is a sort of a blood purifier, will arrest disease, and sometimes induces a run-down system. A spoonful once a week, in soft food twice a week will do no harm and even this amount should be reduced in dry weather. It is better to be withheld from chicks until they are at least three months old.

Charcoal consists almost entirely of carbon and is prepared by burning wood so as to expel all the gaseous matter it contains. Ammonia is a gaseous compound—like lime, potash, and is often termed spirits of saltpetre. If charcoal has been properly treated it would be next to impossible for it to contain enough ammonia to injure animal life. Any impurities charcoal might contain would be more likely absorbed through atmospheric conditions. There need be no hesitancy in using any charcoal which is clean and free from dust.

## LESTER PATRICK

Did Veteran Start Modern Style of Defence Play?

When Pacific Coast advised made the announcement that Lester Patrick was playing his last hockey because of injuries, it was incidentally stated that the erstwhile Montreal star was the originator of the present system of offensive defence play, whereby the defence men carry the puck up the ice instead of lifting it high in the air, frequently over the lights, as they did in the olden times. This is starting an argument with a vengeance. Many players are of the opinion that Red Stuart started this style of play. Others claim that it originated with Lester Patrick. But the rightful disposition of the honor has never been agreed upon. But there is one point on which there will be no disagreement in connection with Lester Patrick's retirement—that he was one of the greatest players the game has ever produced, and as fine a gentleman on and off the ice as ever made a permanent vocation of sport.

Ontario's Patricia  
The district of Patricia lies in the extreme northwestern portion of the Province of Ontario and constitutes that vast new country handed over to it by the Dominion. Up to the last war it was an unexplored and practically unknown portion of Canada directly under the control of the central Government at Ottawa. It has an area of 160,000 square miles, more than three times the size of New York State.

A Profitable Industry  
In Whittier, California, is a famous walnut tree which has been leased for a term of years at \$500. On the seven and eight years old bring all the fruit from \$1,000 to \$2,000 per acre and are a fine investment. The yield from 15 to 125 per cent according to age. The total cost of producing and harvesting an English walnut crop is about one and a half cents per pound. English walnuts are used for making pickles, catsup, oil and other culinary products.

Premier Has no Seat  
So far as Parliamentary law goes not even the Prime Minister has an actual right to any definite place in the House. Indeed, it is on record that in the first reform House of Commons Cobden took possession of the accustomed seat of the leader of the Tory party, Sir Robert Peel, and that nothing could be done to evict the intruder.

Harvest all Red Clover Seed  
Prospective supplies of red clover seed are very much reduced and at best Canadian farmers next year will face an extreme shortage with high prices. Farmers should endeavor to get this autumn to save every bit of the red clover crop that promises to yield good seed.

## Germans Are Beaten Off

### Take Offensive in German East Africa But Fail in Attack

London, May 14. — The German forces in German East Africa have been on the offensive against the British expeditionary forces under Gen. Smuts, but according to an official statement issued last night, the German attacks were beaten off, the attacking forces losing heavily. The official statement says: "Telegraphing on May 12, Lieut. Gen. Smuts reports that the enemy, having effected a concentration of troops under the personal command of Col. Von Lottow-Verbeck (commander of the German imperial troops in German East Africa) in the vicinity of Kilimatinde, made a considerable display of activity in the direction of Kondea Island since May 3. An attack at the latter place, preceded by a heavy bombardment, was attempted during the night of May 8-10, and was driven off with severe losses."

"The enemy persisted in his offensive during the tenth and eleventh, and after sunset on the latter day made a determined effort against the British left flank, which was repulsed. During the 12th there were no enemy attacks. Our losses were considerable."

"A report received, but not confirmed, is that Belgian forces in Ruanda have penetrated to Kigali, after encountering slight opposition."

## Rod and Gun

Bonnycastle Dale contributes the opening article to the May issue of Rod and Gun Magazine, published at Woodstock, Ont., by W. J. Taylor. "Tales of the Trappers and Hunters of 1914-1915" is the title of the article by this well-known writer who can always be depended upon to know what he is talking about when he writes of the creatures of the wild. Frank Yeigh, another well-known Canadian writer contributes "One Eye, Hunny and the Tenderfoot: The Fall of a Trail," a story that depicts some of the idiosyncracies of the sturdy little pack ponies of the Mt. Robson region. There are a dozen or so other articles of interest before the regular departments, which are up-to-date and full of interest to the lover of out-of-door sports, whose equipment includes rod, gun, dog or trap.

## BULGARIA FEARS ALLIED OFFENSIVE

London, May 14.—Bulgaria is withdrawing troops from the Roumanian frontier and shifting them to the Saloniki front in anticipation of an Allied offensive, according to despatches today.

## THE BANQUET TO JUDGE GREENE

Never in the history of Red Deer has such a spontaneous expression of good will and God speed been extended to one of our citizens as was given to Judge George W. Greene, on Wednesday evening last, at the banquet tendered him by the Canadian Club, on the eve of his departure from the city.

Judge Greene has been one of the outstanding landmarks of our community for the past quarter of a century, and during that time he has had a leading place in every step that has been taken for the advancement and uplift of the city.

Coming from good old north of Ireland stock he had a line of humor always at his disposal, kindly and sunny, ever ready to help the poor and oppressed, many a man is richer for his friendly advice. We cannot let this opportunity pass without an illustration of this fact. A leading farmer of the west country stepped into our office last week and said he was pleased to see a banquet had been given Mr. Greene. He remarked he owed all he had to his country. He would have gone into a certain venture, but for the kindly caution of Mr. Greene. He said he went home and pondered over his advice and he concluded, against his own judgment, to have nothing to do with the deal. It turned out that he would have lost all he had if he had not paid attention to what was told him. It is such remarks as these that show the character of the man.

His arduous duties as city Solicitor for this community, extending as it did over a period from our earliest history, is not equalled by any other person in a like position, we feel assured in Western Canada. It is a record of which he may feel justly proud, and it will be his future work on the bench.

## The White Feather

James Guy-Usher, who plays the part of Christopher Brent in the Sherman production of William A. Brady's "White Feather," has gained a wide Canadian reputation. He is an actor of the modern school, and though his career has really just commenced he has scored successes in various Canadian and American theatrical successes.

No other player has ever given so good a characterization of the misunderstood Englishman than does Mr. Guy-Usher in this part. He has the physique to carry the part, a perfect understanding of the character he represents and a manner of delivery that marks him with those at the top of the profession.

Miss Zana Vaughn, who plays with him, is an actress of merit. With a winsome personality, clear diction and a wide experience for her few summers of life, she wins the sympathy and love of her audience from the moment she appears on the stage in the character of Molly Preston. These two principals have been playing together for a number of months which assures a perfect technique in the playing of the production of "The White Feather."

The other members of the caste who will be seen here in the presentation on Thursday night at the Lyric are well known. They can readily be called an "all-star" cast, for they have all spent the major part of their lives behind the footlights.

## Correspondence

Edwell, Alta., May 12th,

To the Editor of the "News":—

Sir,—I have good reason to know that all magistrates in Alberta have, and do always give impartial judgments on all matters brought before them, consequently, I should like to call your attention to a deliberate insult offered to us by the Secretary to the Alberta Temperance and Moral Reform League in a confidential letter issued on the 5th of May last. In this letter he requests the local branches of the League to call a meeting, and among other matters to report on the following:—

"In your opinion will the local magistrates give fair judgment on infractions of the Liquor Act? If not, have you any other magistrate who will?"

Now, Sir, what right has the Secretary to the Alberta Temperance and Moral Reform League to cast a slur on the Alberta magistrates and question their impartiality? It is insinuation that their judgments are likely to be biased, in other words, they cannot be relied upon to administer the law with impartiality. I demand, therefore, that Mr. Coole, the Secretary, do publish an apology in the press for this insult directed against Alberta magistrates.

The League seems to me to regard everyone with suspicion. Can the League itself, or the members thereof, adopt the motto "Sans peur et sans reproche"? I think not.

Thanking you, I am, Dear Sir,

Yours truly,

FRED JAS. POWELL,

A Justice of the Peace

To the Editor of the "News":—

Dear Sir,—There seems to be a mistake by some people in Canada as to which is Empire Day—23rd or 24th of May.

The 23rd is Empire Day, in which the Education Department of the different Provinces, suggest that the teachers and other interested persons give addresses, or a conversational talk to the pupils in the British Empire and her Colonies.

The 24th of May (Victoria Day) was made a permanent holiday some years ago by the Federal Parliament at Ottawa to commemorate the birthday of our late Queen Victoria.

Good. I recollect the resolution was introduced in Parliament by the late Hon. David Mills, ex-M.P. for bothwells, and the Hon. J. P. A. It is hoped there will be a good attendance of farmers, as this is Farmers' Sunday to ask for blessing on the crops.

The ladies of the Red Cross will meet at the home of Mrs. T. Lee on Thursday afternoon for sewing. It is hoped there will be a good turnout, as there is lots of sewing to be done.

The concert advertised to be held at Horn Hill Schoolhouse, May 19th, has been postponed owing to illness in the family of one of the participants.

Miss Zana Vaughn, who plays with him, is an actress of merit. With a winsome personality, clear diction and a wide experience for her few summers of life, she wins the sympathy and love of her audience from the moment she appears on the stage in the character of Molly Preston.

These two principals have been playing together for a number of months which assures a perfect technique in the playing of the production of "The White Feather."

The other members of the caste who will be seen here in the presentation on Thursday night at the Lyric are well known. They can readily be called an "all-star" cast, for they have all spent the major part of their lives behind the footlights.

## The Avengers

Somewhere in France to-night a soldier sleeps. Who will not wake again to God's blue sky. And far across the sea a woman weeps. For over all the land sounds Rachel's cry.

Somewhere on German soil to-night is sleeping. The tyrants who called forth the Lyric are well known. They can readily be called an "all-star" cast, for they have all spent the major part of their lives behind the footlights.

The tyrants who called forth the Lyric are well known. They can readily be called an "all-star" cast, for they have all spent the major part of their lives behind the footlights.

## The Rebellion in Ireland

As a loyal Irishwoman, I feel it imperative for me to write to the loyal men of Canada, most strongly and urgently, and point out a few important facts.

Years ago, I was told that if we British ever went to war with Germany, the Germans intended to get possession of Ireland and Canada. To you men with common sense, does it strike you as it does me, that the rebellion in Ireland today, explains the truth of this statement. Fortunately for us, as in the case of Verdun, our enemy's best laid plans do not always come off. Who is going to frustrate their plans for an invasion into Canada? (an invasion and attempt at possession which is neither impossible or improbable). The loyal men of Canada must do it, as the loyal men in Ireland are doing it, and at once.

I am laughed at when I urge repeatedly, be ready, and told that the Germans have not sufficient arms and ammunition. Absurd idea, when dealing with a nation who have been preparing for this awful war for forty years, and arranging in their minds what parts of the British Empire they intended to have. Let us hope, with some exertion on your part, that, like Verdun, and Ireland, their well laid plans will be frustrated in Canada, but, worst of all, be from want of preparation on their part.

In all my recruiting appeals, I have never overlooked the fact of the grave importance of Home Defence. Nothing I should imagine can give our enemy greater satisfaction than to see the rush of our able-bodied men from Ireland and Canada. We have been told "100,000 armed Germans" are waiting for an opportunity to come into Canada. Don't you think that this should be carefully considered? and that whether they come or whether they don't, you should be ready.

My heart aches when I read of the wanton bloodshed in Ireland. I implore you to avert that here. The Irish are such an impulsive race, so ready to follow a leader, without waiting to consider who or what that leader is, accept without questioning all the lying promises held out to them by the Germans, through that leader. A German promise has been proved a lie again utterly worthless, but it takes some people a long time to wake up to that fact. Ireland as a whole is loyal, and our Irish regiments stand out throughout the whole British

army, and I consider they represent the true feeling of Ireland. Ignorance, laziness, and superstition control parts of Ireland, and bring about a disloyal condition. Don't let this be said of Canada.

On the eve of my departure from Canada, a country I have grown to have an affection and appreciation for, I send forth this my last warning, and do not forget that one of your chief ways of preparing, is to return to Germany or to intern all Germans. The woman married to a Britisher or American should only be excluded, because they become mothers of Britishers and Americans. There are exceptions to every rule—this is the only one I should make. Owing to air raids, the Scotch have demanded the expulsion of all Germans from Scotland—a good lead to follow—"Watch and Pray"—Be Ready.

Florence Broughton-Adlerley

## Delburne

May 9, 1916

The Methodist choir are preparing a concert to be given in the church on Monday evening, May 15.

Mr. Oughton of Calgary is the new cashier at the Bank here.

The funeral took place to the Delburne cemetery on Friday last of the infant son of Mr. and Mrs. D. Blair.

Miss E. V. Mitchell has resumed her music class after an absence of several months.

Mrs. Ferrell entertained the ladies for a concert to be given in the afternoon card party on Thursday last.

Mrs. Clendenen gave a musicale on Saturday afternoon in honor of her sister Miss Edith Mitchell who has returned from spending the winter in the east.

Rev. Mr. and Mrs. Haddon are at Elmore. Mr. Haddon is preaching the funeral sermon of Rev. Mr. Lloyd who was killed recently in France.

The tennis courts have been fitted up and tennis enthusiasts are enjoying themselves these days.

Mr. Wilbert Wellwood, traveller for the Art Tailoring Co., Toronto, is a guest over Sunday of his sister, Mrs. Kent.

Miss Ella Culham was the hostess of a surprise party at her home near Delburne on Friday evening last.

Messrs. Whitcraft and Cassam, Trenville were business visitors over this week.

Mr. John McFarley has sold out his lumber business to the Alberta Lumber Co. formerly the Globe Lumber Co. and he has been made their agent in Delburne.

## Rebel Leaders Have All Had Their Trials

Those Who Have Been Arrested in Irish Provinces Now Being Dealt With

Dublin, May 11.—A statement issued to-night gives the names of six additional men tried by court martial and sentenced to death, but whose sentences were commuted to various terms of imprisonment and of five others who were sentenced to terms in prison.

The statement adds that trials for the murder of Head Constable Rowe occurred at Cork, May 4, with the following results: William Kent acquitted; Thomas Kent found guilty and sentenced to death. Sentence confirmed and execution performed in the 9th.

The statement, which is issued from headquarters, says: "The trials of those who took an active part in the rising in Dublin are practically concluded. Those arrested in the provinces are now being dealt with. In view of the gravity of the rebellion and its connection with German intrigue and propaganda, and in view of the great loss of life and destruction of property resulting therefrom, the general officer commanding in chief has found it imperative to inflict the most severe sentences on the known organizers of this detestable rising and on those commanders who took an active part in the actual fighting which occurred."

"It is hoped that these examples will be sufficient to act as a deterrent to intrigues and bring home to them that the murder of his majesty's liege subjects or other acts calculated to imperil the safety of the realm, will not be tolerated."

## Senate Passes The Liquor Bill

Ottawa, May 11.—In senate to-day, Senator Davis, on motion for third reading of the government's bill to make provincial prohibition legislation effective, offered an amendment. The amendment made it a penalty for a brewer or a distiller to make intoxicating beverages or a distiller to make intoxicating beverages in any province which has enacted prohibitory legislation. He said only this would make provincial legislation effective. There was no use prohibiting the sale of liquor if its manufacture was not also forbidden.

Hon. Mr. Loughheed said each province now had the authority to forbid brewing and distilling within its boundaries. Senator Davis said there was no call for the bill at all then. Hon. Mr. Loughheed said the purpose of the bill was to protect a province, which had declared for prohibition from provinces which had not.

The amendment was defeated by 31 to 15 and the bill was given third reading.

The speaker ruled against the contention of Honorable Mr. Loughheed that St. Peter's Indian Reserve bill was a money bill and could not be amended by the senate.

An amendment by Senator Davis that the dollar extra payment by settlers be struck out, was carried 25 to 16 and the committee on motion of Senator Loughheed then rose, thus killing the bill.

## Eckville

A. Eckford is busy writing hail insurance.

Mr. Slack of Benalto and Mr. Shore of Ottawa, were visiting friends in Eckville last week.

Mr. Fairweather will conduct dining service in the Hall at Eckville every Sunday at 11 o'clock. Everybody welcome.

Letters have been received from Mr. Litt, who is now with the C.A. M.C. at Calgary, he hopes soon to be fit for the front.

A number of the farmers in the Gilby district shipped two cars of stock south last week. This is the first shipment sold direct by the farmers, who believe that they can do better than selling to dealers.

The posters for the Victoria Day sports are out, and give some idea of the list of attractions being arranged. In addition to the list of prizes announced, the committee has received the following: A wheelbarrow, presented by Mr. Lundberg for the pioneers race, open to farmers resident in this district for ten years, a bottle of perfume, presented by Mr. Forhan, for girls' race.

In response to a request from the teacher and scholars of the Eckville school, a number of the parents of the children were on the school grounds on Arbor Day, and assisted in preparing the garden, and also planting trees. It is good to have the school surroundings as pleasant as possible, and the activities of Miss Gudmundson in this direction are to be commended.

## Youngest Film Star

Little Billy Jacobs, 28 months old, is probably the youngest star in the world. This youngster is a natural comedian. Ford Sterling often allowed him to play opposite him in comedies.

## THE POWER OF SLEEP

Robert Watson, M.D., writes: "I may begin with a renegade made by Gladstone towards the end of his career. 'I am losing,' he said, 'the only really great gift I ever possessed—the power of sleep.' Gladstone, who knew how brain and nerves could be worried and wrought, appreciated what sleep did for him. Using the most wonderful instrument in the world in a way that taxed its capabilities and endurance to the utmost, and moving from crisis to crisis in a full life with no opportunity or desire to evade these testing times, he could measure and appreciate the value of sleep."

Smaller men, less tried by circumstances, might never discover the extent of this boon. But all of us ought to know it, and one of the prime essentials in a seasoned physical culture is to manage this daily business of sleep in a way to secure all the profit that are ours by right. Too often we act as if we did not understand what sleep was—shove it off until there seems no longer any excuse for remaining awake. But sleep is not a stupor, brutally, unprofitably save in the barest sense—and all just because we failed to realize that there is an actual pleasure in sleep.

Meals, like sleep, are for our benefit. We grasp that fact. More often than not, however, our rest for the table is purely sensual; eyes, nose, and palate are tickled, and that satisfaction brings us back at the appointed hour for the next feed. Sometimes there is an actual call from the exhausted frame. But about sleep there seems no attraction save for the lowest and highest of mankind, the indolent who enjoy it as an escape from work, and the few spirits who appreciate the keen edge a proper sleep puts upon all their faculties.

## CAREFUL MEN WANTED

Railways Give Advice to New Employees on Taking Precautions

Vice-President Howard G. Kelley of the Grand Trunk Railway System, has ordered instructed in the book of rules governing the operating department, the following message to new employees: "Your success in the service you are about to enter will depend upon the care you exercise in the discharge of your duties. The best record you can make, both for yourself and for the Company, is the record of a considerate and careful man. There are engineers, conductors and others who have worked for the Grand Trunk from twenty to thirty years without receiving injury themselves or causing injury to a single one of their fellow employees. Everybody respects the man who can make that kind of record."

## VALUE OF COW TESTS

Milking Records Enabled Farmers to Increase Their Profits

One of the most difficult things to comprehend to-day is that it is the amount of clear money, over and above the cost of feed, that determines what each and every cow is worth. Not what gross returns she makes. It is only when we begin to test systematically that we realize this. A farmer in Oxford County, in 1906 had a herd of cows producing about 5,000 pounds per cow. In four years, by selecting his best producers, he raised the average production of his herd of 70 cows over 1,000 pounds per cow. Twenty of these produced over 8,000 pounds. And he hoped in a couple of years more to raise the average of his herd to 8,000 pounds, which he has since accomplished. Most of this work was on grade cows, not obtained by keeping records and by weighing the milk only three times per month. Of course, he fed generously, but it does not matter if our cows do consume a little more feed, if they give in turn a greater net profit. Another farmer in Wentworth County graded up his herd until it is now producing nearly 7,000 pounds per cow. These are only two instances. There are dozens of them, but there are not nearly enough. They demonstrate, however, that this thing can be done.

## When Fowl Lose Weight

Experiments show that the loss in weight by killing and dressing shows that the total loss in weight of chickens starved for 36 hours, prepared for market by having their necks broken, dry plucked and not bled nor drawn, was 20 per cent. of the live weight. When the chickens were prepared for the oven there was an average loss of 33 1/3 per cent. Fifty-four per cent. of the live weight of the chicken was the drawn weight. Birds that weighed alive five pounds eight ounces, weighed when prepared for the oven two pounds fifteen ounces.

# The Right Idea In Business

HE modern merchant filled with the modern spirit carries his business to his customers' homes; that is, he doesn't wait to be found out or risk the danger of not being found out.

The best carrier of business to customers' homes is the newspaper. Edwards of Macleod, Vice-President for Alberta of the National Council, and Convenor of the National Council's Committee on Laws, will deliver an address. All members of affiliated societies are members of the local Council.

Rev. A. J. Patstone, of Lacombe, who has had charge of the Anglican church in that town, for the last 25 years has accepted a call from the Bishop of New Brunswick to fill a vacancy in that diocese. He will probably leave for the East about the 1st of June. Mr. and Mrs. Patstone have many friends in Red Deer who will regret to hear of their departure from Alberta.

BY-LAW CARRIED

The vote on the by-law to issue debentures to the amount of \$3,000 to pay for improvements to the buildings at the Exhibition grounds and extending the water system thereto was carried by an almost unanimous vote of the property-holders on Monday. The result showed that 28 voted for it and 3 against. While this is a small vote it showed that the ratepayers are satisfied to make these improvements for the salaries and that they would prefer extending payment over a term of years to paying for same out of current revenue.

Rev. N. D. Keith was a visitor in Edmonton Saturday.

Car of White Potatoes wanted at once.—Apply C. W. Parke, Red Deer.

**Military Notes**

Lieut. Horace Meeres, received word of the death of his brother, Edgar Stewart Meeres of the Princess Pats on Saturday last. He was in Corp. J. A. Carawell's platoon.

Pto. H. L. Stephens, a homesteader from this district who enlisted with a Calgary regiment is reported as wounded in Friday's casualty list. A brother W. P. Stephens resides in Calgary.

Pto. E. Merkeley of Mirror, who enlisted here with C Squadron 12th C.M.I., is posted as wounded in Saturday's casualty list. A brother is with the 80th Battalion.

Sergt. Robert Kerr Frizzelle, of the 10th Battalion, formerly a well-known C.P.R. telegraph operator, reported killed in action last week was for a time employed by the C.P.R. here.

Lance-Corp. Alexander Bruce, mentioned in Wednesday's casualties as wounded, is believed to be an Olds man of that name who enlisted here with the first party of volunteers to leave the city after the outbreak of war. No next of kin is given.

Elmer O. Eisenman reported wounded in a casualty list of last week, was one of a party of Consort men who enlisted here in August, 1914. He was later transferred to a Canadian cavalry regiment. The next of kin resides at Lake Saskatchewan, Alta.

Lance-Corp. Charles Pinlay Messick, also reported wounded in a recent casualty list was among the recruits taken on here for Col. Bell's 31st Battalion. He is believed to have come from near Rocky Mountain House. The next of kin resides at Maldon, Mass.

The officers commanding the Red Deer Detachment of the 80th Battalion request us to ask all citizens to refrain from crowding around the station when troops are entraining.

Pto. Stanley A. Fuller, son of W. A. Fuller, M.P.P., for Lacombe, is reported as wounded in yesterday's casualty list. He enlisted here in November, 1914, with the local detachment of Col. Bell's 31st Battalion.

Frank Allen, son of Mrs. Thos. Wright, of the 12th C.M.I., was wounded recently by a sniper just between the eye and ear. It was only a flesh wound and he was in hospital for only a few days. He was standing up talking to Percy Smith when he was hit. It was as narrow an escape as a man could have.

The officers commanding the Red Deer Detachment of the 80th Battalion request us to ask all citizens to refrain from crowding around the station when troops are entraining.

**Parents Should See To It**

that their children's eyes are well taken care of. It is oftentimes necessary for very young children to wear glasses. By securing the proper glasses and wearing them in time, the defect is oftentimes overcome and it is not necessary to wear glasses in later years. We make a specialty of children's cases.
